Staff Engagement.

CUMMINS C&G TEAM BUILDING.

Making Customers Smile Quality Integrity Innovation Empowerment

Saturday 12th November saw Cummins C&G employees and C&G staff members from shared services rise with the dawn; seeing as we were all expected to be at Car & General is the wee hours of the morning. We had 4 coaster minibuses waiting to ferry us, all thoughts on the day ahead as all roads led to Naivasha; red and black being the colors of the day.

Naivasha Resort ushered us into a grand gate and an inviting simple spacious architecture that speaks to escape, serenity and silence; this though was far from the activities that took as there. We were invited in to breakfast on a lush lawn that rolls to the edge of Lake Naivasha. The beautiful simplicity of the presentation, playing temptress to breaking away to explore the grounds further. Upon filling up tummies, we were ushered to gather under a tree on the grounds; where DJ Legend had music playing and the Premier Getaways team eagerly waited to have us realize the meaning of breaking silos. The hippos in the lake, as if sensing the presence of newcomers, stepped out of the water and onto the shore, exhibiting their enormous masses. They were a site to behold.

After a bit of stretching and cardio exercises, we were put to task to exhibit, trust, teamwork, resilience, cooperation, communication, coordination and adaptability; the Cummins C&G way. It was a hive of activity as we broke into groups; from the human pendulum, to solving witty puzzles, the human wheel race among many other activities. There was even an attempt at traditional songs and dance. Then there was lunch.

After lunch activities were less taxing on the physique. We were addressed by the leadership team, before the rain decided to interrupt our fun and send us in doors for a climax to the day. Awards and recognition coming in guick succession. As day turned into dusk, residual activities were left to those who own the night.

Our Vision

Make customers smile in every street, every town

Our Mission

To achieve leadership position in all our primary markets - power generation, automotive and enginerelated products in East Africa.
